As a Condo Board Member, I've used Nonstop Locksmith for a number of re-keying efforts. Recently, we had a late night issue that required door locks to be changed and new keys to be made. Chuck McKeag from Nonstop came out not once, but twice and was a total professional. He works quickly and even offered up pro-active, cost-effective suggestions to further secure our building.

They charged what they quoted, had great customer service (not to mention was really empathetic about locking myself out) and I'm definitely keeping them in my contacts list JUST IN CASE!
