HIGH SECURITY LOCKS

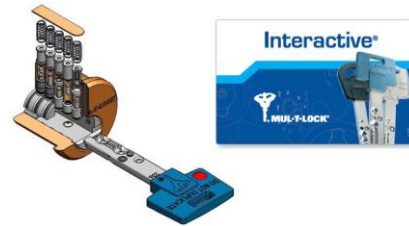

Serving both business and residential customers, we are authorized dealers of **Mul-T-Lock™**, a high security solution to your safety needs.

What are "High Security" locks?

Locks that are designed not to be drilled, picked or 'bumped'. They require professional locksmith tools and skills to open.

Mul-T-Locks™ ensure that only authorized dealers can make copies of your keys and eliminate the fear of others making unwanted copies of your keys.

With each **Mul-T-Lock™** there is a special code on the personal key order card. Without this card the key cannot be reproduced so your safety stays assured.

RESIDENTIAL SERVICES

Your home and its contents represent your single largest financial investment and should be properly secured.

If you have recently moved into a new home, one of the first things you should do is change the locks.

We Unlock: Closets, Garage Doors, Sliding Doors, Entry Gates, Mailboxes Padlocks & Safes.

This is the only way you can ensure that you are the single person with a set of keys.

Our residential locksmith services can be booked for a time that is convenient for you, weekdays, weekends, or evenings for no additional charge. Our locksmiths carry a complete inventory of all parts needed to complete your job
